Globex Mining Enterprises Inc.
Management's Discussion & Analysis
Six Months Ended June 30, 2022
Dated: August 15, 2022

The following Management's Discussion and Analysis ("**MD&A**") of the financial condition and results of operations of Globex Mining Enterprises Inc. (the "**Corporation**", "**we**" or "**Globex**") constitutes management's review of the factors that affected the Corporation's financial and operating performance for the six months ended June 30, 2022. This MD&A was prepared in compliance with the requirements of National Instrument 51-102 – *Continuous Disclosure Obligations*. This discussion should be read in conjunction with the unaudited condensed interim consolidated financial statements of the Corporation for the three and six months ended June 30, 2022, together with the notes thereto. Results are reported in Canadian dollars, unless otherwise noted. The Corporation's unaudited condensed interim consolidated financial statements and the financial information contained in this MD&A are prepared in accordance with International Financial Reporting Standards ("**IFRS**") as issued by the International Accounting Standards Board ("**IASB**") and interpretations of the IFRS Interpretations Committee. In the opinion of management, all adjustments (which consist only of normal recurring adjustments) considered necessary for a fair presentation have been included. Information contained herein is presented as of August 15, 2022, unless otherwise indicated.

For the purposes of preparing this MD&A, management, in conjunction with the Board of Directors (the "**Board**"), considers the materiality of information. Information is considered material if: (i) such information results in, or would reasonably be expected to result in, a significant change in the market price or value of the Corporation's common shares; (ii) there is a substantial likelihood that a reasonable investor would consider it important in making an investment decision; or (iii) it would significantly alter the total mix of information available to investors. Management, in conjunction with the Board, evaluates materiality with reference to all relevant circumstances, including potential market sensitivity.

Further information about the Corporation and its operations is available on the Corporation's website at www.globexmining.com and on SEDAR at www.sedar.com.

This MD&A contains forward-looking information. See "Cautionary Note Regarding Forward-Looking Statements" below. As well, see "Risks and Uncertainties" below.

Description of Business and Nature of Operations

Globex is a North American focused exploration and project generator/property bank which seeks to create shareholder value by acquiring mineral properties, undertaking limited exploration and preparing the properties for optioning, joint venturing, or outright sale, all within the goal of advancing the projects towards production.

As part of its total compensation arrangements, we seek to secure long-term royalty arrangements that will provide continued financial benefits to Globex and its shareholders.

Currently, we are focused on acquiring and vending properties, acquiring properties which meet one or more of the following criteria:

- have historic or NI 43-101 mineral resources;
- have reported past production;
- have established drill targets or drill intersections of economic merit, and
- are located on major geological structures.

Under Globex property option agreements, the optionee gains the rights and control of the property and the right to acquire an interest in the property in exchange for:

Globex Mining Enterprises Inc.
Management's Discussion & Analysis
Six Months Ended June 30, 2022
Dated: August 15, 2022

- a series of annual cash and/or share payments,
- an exploration work commitment; as well as
- a Gross Metal Royalty ("**GMR**").

Upon the satisfaction of the option terms, the property interest is transferred to the optionee. The option contract will terminate if annual payments and/or work commitments are not met. Globex may retain a GMR or other carried or participating interest in the property when it is transferred. Outright property sales may include cash and/or share payments and a form of royalty interest payable when projects achieve commercial production, or another negotiated milestone.

Our current mineral portfolio consists of approximately 212 early to mid-stage exploration, development and royalty properties which contain **Base Metals** (copper, nickel, zinc, lead), **Precious Metals** (gold, silver, platinum, palladium), **Specialty Metals and Minerals** (manganese, vanadium, titanium dioxide, iron, molybdenum, lithium, cobalt, scandium, antimony, rare earths and associated elements) and **Industrial Minerals** (mica, silica, potassic feldspar, pyrophyllite, kaolin as well as talc and magnesite).

Globex was incorporated in the Province of Quebec and following the approval of shareholders on June 12, 2014, it was continued under the Canada Business Corporations Act, effective October 28, 2014. The head office is at 89 Belsize Drive, Toronto, Ontario M4S 1L3 and the principal business office is at 86, 14th Street, Rouyn-Noranda, Quebec, J9X 2J1, Canada.

Globex's common shares are listed on the Toronto Stock Exchange ("**TSX**") under the symbol GMX, and in Europe under the symbol G1MN on the Frankfurt, Stuttgart, Berlin, Munich, Tradegate, and Lang & Schwarz Stock, Long & Black, TTM Zero Exchanges. Globex trades under the symbol GLBFX on the OTCQX International Exchange in the United States.

Economic Environment and Corporate Focus

Economic Environment

At this time, there appears to be consensus that while volatile, commodity prices will increase over the near-term forecast period as a result of the lack of new production capacity coming on stream. Commodities are priced globally in U.S. currency so their prices typically move in the opposite direction from the U.S. dollar.

During property acquisition, exploration, and financial planning, Globex's management monitors metal demand and supply balances as well as price trends. In addition to monitoring metal prices, management also monitors financing activities in the junior mining sector as this represents the sector in which both current and potential partners generate the financing needed to complete option arrangements with Globex.

Due to the worldwide COVID-19 pandemic, material uncertainties may come into existence that could influence management's going concern assumption. In particular, management cannot accurately predict the future impact that the COVID-19 pandemic may have on:

- Gold, silver, nickel, copper and zinc prices;
- Demand for gold, silver, nickel, copper and zinc and the ability to explore for gold, silver, nickel, copper and zinc;
- The severity and the length of potential measures taken by governments to manage the spread of COVID-19, and their effect on labour availability and supply lines;

Globex Mining Enterprises Inc.
Management's Discussion & Analysis
Six Months Ended June 30, 2022
Dated: August 15, 2022

- Availability of government supplies, such as water and electricity;
- Purchasing power of the Canadian dollar; or
- Ability to obtain funding.

At the date of this MD&A, the Canadian federal and Quebec provincial governments have introduced measures which to a degree impede the activities of Globex. Management believes the business will continue and accordingly the current situation bears no lasting impact on management's going concern assumption. However, it is not possible for Globex to reliably estimate the length and severity of potential developments and their impact on the financial results and condition of Globex in future periods.

The following table highlights the comparative metal prices which the Corporation monitors.

Summary of Metal Prices					
Current Prices with Comparative (2018 – 2022)					
Commodities	Q2 2022 (USD)	2021 (USD)	2020 (USD)	2019 (USD)	2018 (USD)
Gold (\$/oz.)	1800.60	1,829.80	1,898.00	1,516.80	1,280.40
Silver (\$/oz.)	20.02	23.30	26.37	17.82	15.43
Nickel (\$/pound)	9.50	9.43	7.54	6.32	4.81
Copper (\$/pound)	3.40	4.43	3.51	2.79	2.72
Zinc (\$/pound)	1.38	1.63	1.24	1.03	1.15

Financial and Operating Highlights

Corporate

On January 17, 2022, 10,000 stock options with a fair value per share of \$0.2676 were exercised at an exercise price of \$0.44 per share. Globex's shares closed at \$1.15 per share that date.

On January 19, 2022, 12,500 stock options with a fair value per share of \$0.3636 were exercised at an exercise price of \$0.68 per share. Globex's shares closed at \$1.17 per share that date.

On February 17, 2022, 10,000 stock options with a fair value per share of \$0.2676 were exercised at an exercise price of \$0.44 per share. Globex's shares closed at \$1.40 per share that date.

On March 8, 2022, 5,000 stock options with a fair value per share of \$0.1996 were exercised at an exercise price of \$0.35 per share. Globex's shares closed at \$1.32 per share that date.

On March 14, 2022, 5,000 stock options with a fair value per share of \$0.1996 were exercised at an exercise price of \$0.35 per share and 10,000 stock options with a fair value per share of \$0.1247 were exercised at an exercise price of \$0.235 per share. Globex's shares closed at \$1.40 per share that date.

On March 22, 2022, 10,000 stock options with a fair value per share of \$0.2676 were exercised at an exercise price of \$0.44 per share. Globex's shares closed at \$1.48 per share that date.

On April 7, 2022, 25,000 stock options with a fair value per share of \$0.3636 were exercised at an exercise price of \$0.68 per share. Globex's shares closed at \$1.58 per share that date.

**Globex Mining Enterprises Inc.
Management's Discussion & Analysis
Six Months Ended June 30, 2022
Dated: August 15, 2022**

On April 21, 2022, 20,000 stock options with a fair value per share of \$0.226 were exercised at an exercise price of \$0.38 per share. Globex's shares closed at \$1.64 per share that date.

On May 11, 2022, 10,000 stock options with a fair value per share of \$0.226 were exercised at an exercise price of \$0.38 per share. Globex's shares closed at \$1.25 per share that date.

In June 2022, Globex received \$3,000,000 from Yamana Gold Inc. ("**Yamana**"). The payment is the second in a series of five payments payable to Globex over a 5-year period from the sale of the Francoeur/Arntfield/Lac Fortune gold properties to Yamana.

During the six months ended June 30, 2022, 19,700 commons shares were repurchased for cash consideration of \$20,652 in accordance with the Normal course issuer bid

Revenues

In the three and six months ended June 30, 2022, Globex reported option income and advances royalties of \$128,485 and \$673,451, respectively (three and six months ended June 30, 2021 – \$4,830,000 and \$5,340,000, respectively) which consisted of cash receipts of \$69,985 and \$479,985, respectively (three and six months ended June 30, 2021 - \$300,000 and \$810,000, respectively) and shares in optionee corporations with a fair market value of \$58,500 and \$193,466, respectively (three and six months ended June 30, 2021 - \$4,530,000).

Six months ended June 30, 2022:

- On January 1, 2022, Globex received a cash payment of \$250,000 from Electro Metals and Mining Inc. in connection with the Fabie Bay/Magusi property.
- On January 1, 2022, Globex received a cash payment of \$50,000 from Aurvista Gold in connection with the Eagle Gold Mine property.
- On January 14, 2022, Globex received 144,126 common shares with a fair value of \$46,841 from Maple Gold Mines Ltd. in connection with the Eagle Gold Mine property.
- On March 4, 2022, Globex received a cash payment of \$100,000 from Infini Resources Pty Ltd. in connection with the Des Herbiers property.
- On March 17, 2022, Globex received a cash payment of \$10,000 and 375,000 common shares with a fair value of \$88,125 from First Energy Metals Limited in connection with the Electron Lithium property.
- On June 10, 2022, Globex received a cash payment of \$20,000 from Manganese X Energy Corp. in connection with the Battery Hill property.
- On June 24, 2022, Globex received 650,000 common shares with a fair value of \$58,500 from High Tide Resources Corp. in connection with the Pegma property.
- On June 28, 2022, Globex received a cash payment of \$49,985 from Electro Metals and Mining Inc. in connection with the Fabie Bay/Magusi property.

During the six months ended June 30, 2022, Globex recorded metal royalty income of \$nil (six months ended June 30, 2021 - \$696,793) from Nyrstar Mid-Tennessee Mines having earlier sold the royalty.

Outlook

The "Economic Environment and Corporate Focus" section above highlights that management monitors the changes in demand/supply balance and metal price trends. Recently, we have seen a tepid revival in

**Globex Mining Enterprises Inc.
Management's Discussion & Analysis
Six Months Ended June 30, 2022
Dated: August 15, 2022**

global markets in general and commodity markets in particular other than battery metals and more recently gold.

For the six months ended June 30, 2022, our option/sale income and advance royalties were reported at \$673,451 as compared to \$6,036,793 for the six months ended June 30, 2021. We have continued our marketing efforts and are projecting option, sales and royalty revenues in excess of \$7,000,000 for 2022 based on existing contracts, current discussions and market conditions.

During 2021, the price of metals and minerals other than precious metals initially decreased adding pressure on exploration activities. Subsequently many of these metal prices reversed and rose to new highs.

While we are optimistic, we also recognize the risks and volatility that currently exist partly because of the uncertainty related to the current metal prices, pandemics and world economic factors.

On the exploration front, we have developed plans and budgets with a view to gaining additional project knowledge and leveraging this into sale/option agreements.

Despite the potential risks and uncertainties, Globex believes it is well positioned with a combination of first-class assets as well as the human and corporate resources necessary to achieve our strategic objectives.

Environmental Contingency

The Corporation's exploration activities are subject to various laws and regulations relating to the protection of the environment. These environmental regulations are continually changing and are generally becoming more restrictive. As of June 30, 2022, the Corporation does not believe that there are any significant environmental obligations requiring material capital outlays in the immediate future.

Off-Balance Sheet Arrangements

As of the date of this MD&A, the Corporation does not have any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on the results of operations or financial condition of the Corporation including, without limitation, such considerations as liquidity and capital resources that have not previously been discussed.

Proposed Transactions

There is one proposed transaction of a material nature being considered by the Corporation. The Corporation continues to evaluate properties and corporate entities that it may acquire in the future.

Results of Operations

Three month ended June 30, 2022, compared with three months ended June 30, 2021

The Corporation's net **loss** totaled \$4,409,206 for the three months ended June 30, 2022, with basic and diluted loss per share of \$0.08. This compares with a net income of \$6,517,715 with basic and diluted income per share of \$0.12 and \$0.11, respectively for the three months ended June 30, 2021. The increase in net loss was principally due to:

- Revenues decreased to \$128,485 for the three months ended June 30, 2022 compared to \$5,236,474 for the three months ended June 30, 2021.
 - In the three months ended June 30, 2022, Globex reported option income and advances royalties of \$128,485 (three months ended June 30, 2021 – \$4,830,000).
 - During the three months ended June 30, 2022, Globex recorded metal royalty income of \$nil (three months ended June 30, 2021 - \$406,474) from Nyrstar Mid-Tennessee Mines ("Nystar"). Before the sale of the Mid-Tennessee Zinc Mines Royalty, the Corporation was entitled to a GMR of 1.0% if the LME monthly average zinc price is greater than USD \$0.90 per pound in the month after the production at the Nyrstar zinc operations. The GMR will increase to 1.4% if the monthly average zinc price is greater than \$1.10.
- Exploration and evaluation expenditures increased to \$571,951 for the three months ended June 30, 2022, compared to \$217,844 for the three months ended June 30, 2021. The increase can be attributed

Globex Mining Enterprises Inc.
Management's Discussion & Analysis
Six Months Ended June 30, 2022
Dated: August 15, 2022

to acquisition costs and exploration expenditures incurred on various projects. See "Mineral Exploration Properties" below for a summary of the exploration programs for Globex's property portfolio.

- Professional fees and outside services decreased in the three months ended June 30, 2022 to \$199,466 compared with \$216,658 for the three months ended June 30, 2021, primarily due to lower corporate activity requiring external professional support services. Professional fees and outside services consisted of investor relations, audit and accounting fees, management consulting, other professional fees, legal fees and filing fees.
- Administration fees decreased in the three months ended June 30, 2022 to \$123,102 compared with \$222,348 for the three months ended June 30, 2021. Administration fees consisted of office expenses, conventions and meetings, advertising and shareholder information, transfer agent, office maintenance and repairs and other administration.
- Salaries increased in the three months ended June 30, 2022 to \$505,374 compared with \$109,406 for the three months ended June 30, 2021, primarily due to a bonus paid to Chief Executive Officer ("CEO") regarding the sale of Mid-Tennessee Zinc Mines Royalty and the sale of the Francoeur/Amtfield/Lac Fortune gold property in the prior year.
- Loss on the sale of investments increased in the three months ended June 30, 2022 to a loss of \$32,768 compared with a gain of \$293,321 for the three months ended June 30, 2021.
- Decrease in fair value of financial assets increased in the three months ended June 30, 2022 to \$3,618,520 compared with an increase of \$1,832,866 for the three months ended June 30, 2021. The increase in loss was due to the change in fair value of investments.
- All other expenses related to general working capital purposes.

Six month ended June 30, 2022, compared with six months ended June 30, 2021

The Corporation's net loss totaled \$4,673,809 for the six months ended June 30, 2022, with basic and diluted loss per share of \$0.08. This compares with a net income of \$6,889,070 with basic and diluted income per share of \$0.13 and \$0.12, respectively for the six months ended June 30, 2021. The increase in net loss was principally due to:

- Revenues decreased to \$673,451 for the six months ended June 30, 2022 compared to \$6,036,793 for the six months ended June 30, 2021.
 - In the six months ended June 30, 2022, Globex reported option income and advances royalties of \$673,451 (six months ended June 30, 2021 – \$5,340,000).
 - During the six months ended June 30, 2022, Globex recorded metal royalty income of \$nil (six months ended June 30, 2021 - \$696,793) from Nyrstar Mid-Tennessee Mines ("Nystar"). Before the sale of the Mid-Tennessee Zinc Mines Royalty, the Corporation was entitled to a GMR of 1.0% if the LME monthly average zinc price is greater than USD \$0.90 per pound in the month after the production at the Nyrstar zinc operations. The GMR will increase to 1.4% if the monthly average zinc price is greater than \$1.10.

Globex Mining Enterprises Inc.
Management's Discussion & Analysis
Six Months Ended June 30, 2022
Dated: August 15, 2022

- Exploration and evaluation expenditures increased to \$862,831 for the six months ended June 30, 2022, compared to \$497,469 for the six months ended June 30, 2021. The increase can be attributed to acquisition costs and exploration expenditures incurred on various projects. See "Mineral Exploration Properties" below for a summary of the exploration programs for Globex's property portfolio.
- Professional fees and outside services decreased in the six months ended June 30, 2022 to \$392,321 compared with \$411,359 for the six months ended June 30, 2021, primarily due to lower corporate activity requiring external professional support services. Professional fees and outside services consisted of investor relations, audit and accounting fees, management consulting, other professional fees, legal fees and filing fees.
- Administration fees increased in the six months ended June 30, 2022 to \$309,307 compared with \$302,580 for the six months ended June 30, 2021. Administration fees consisted of office expenses, conventions and meetings, advertising and shareholder information, transfer agent, office maintenance and repairs and other administration.
- Salaries increased in the six months ended June 30, 2022 to \$630,697 compared with \$91,574 for the six months ended June 30, 2021, primarily due to a bonus paid to CEO regarding the sale of Mid-Tennessee Zinc Mines Royalty and the sale of the Francoeur/Amtfield/Lac Fortune gold property in the prior year.
- Gain on the sale of investments increased in the six months ended June 30, 2022 to a gain of \$499,130 compared with a gain of \$426,539 for the six months ended June 30, 2021.
- Decrease in fair value of financial assets increased in the six months ended June 30, 2022 to \$4,248,402 compared with an increase of \$1,933,291 for the six months ended June 30, 2021. The increase in loss was due to the change in fair value of investments.
- All other expenses related to general working capital purposes.

The Corporation's total assets at June 30, 2022 were \$30,447,271 (December 31, 2021 - \$37,507,668) against total liabilities of \$152,277 (December 31, 2021 - \$2,608,887). During the six months ended June 30, 2022, operating activities generated outflows of \$3,581,333, financing activities generated inflows of \$35,299 and investing activities generated inflows of \$1,248,891. The Corporation has sufficient current assets to pay its existing liabilities of \$152,277 at June 30, 2022.

Liquidity and Capital Resources

At June 30, 2022, the Corporation had cash and cash equivalents of \$9,837,238 (December 31, 2021 - \$12,125,190). In addition, it had investments with a fair market value of \$9,853,991 (December 31, 2021 - \$14,582,135) which represents shares received under mining option and sale agreements.

The Corporation's working capital (based on current assets minus current liabilities) was \$24,153,979 at June 30, 2022 (December 31, 2021 - \$27,212,305).

Globex has a number of sale and option agreements in place and in discussion which are estimated to potentially generate gross option payments in excess of \$7.0 million in 2022. These payments are subject to the optionee having sufficient funds available to meet the obligations and option terms of potential new options being approved. We monitor the outstanding amounts on an ongoing basis.

Globex Mining Enterprises Inc.
Management's Discussion & Analysis
Six Months Ended June 30, 2022
Dated: August 15, 2022

The Corporation continues to negotiate option and royalty agreements and the potential sale of properties.

The Corporation believes that based on the current cash and working capital position and its access to liquidity sources, it has sufficient resources readily available to meet its current exploration spending commitments and corporate and administrative requirements for the next twelve months.

See "Cautionary Note Regarding Forward-Looking Statements" below.

Globex does not have any long-term debt or similar contractual commitments.

Cash Flow

During the six months ended June 30, 2022, operating activities generated outflows of \$3,581,333 for which \$4,672,438 was due to payments of 2021 income taxes, financing activities generated \$35,299 and investing activities generated \$1,248,891.

Operating, financing and investing activities as well as the effect of exchange rate changes on cash held in foreign currencies during the six months ended June 30, 2022 resulted in an increase in cash and cash equivalents of \$9,191.

Qualified Person

All scientific and technical information contained in this MD&A was prepared by the Corporation's geological staff under the supervision of Qualified Persons as defined in National Instrument ("NI") 43-101. The exploration and technical information presented in this MD&A has been reviewed by Pierre Riopel, Chief Geologist of Globex, who is a Qualified Person under NI 43-101.

Mineral Exploration Properties

Exploration expenditures for the three and six months ended June 30, 2022 totaled \$571,951 and \$862,831, respectively (June 30, 2021 - \$217,844 and \$497,469, respectively). During the three and six months ended June 30, 2022 and 2021, exploration and evaluation expenditures were incurred on the various projects as follows:

	Three Months Ended June 30, 2022	Three Months Ended June 30, 2021	Six Months Ended June 30, 2022	Six Months Ended June 30, 2021

Quebec projects

During the six months ended June 30, 2022, exploration expenditures totalling \$761,010 were incurred on Quebec projects.

Projects on which the largest expenditures were incurred during the six months ended June 30, 2022 are described below:

Courville (Courville), Rivière Opinaca (NTS 33C04-33C05-33D01-33D08), Victoria West (Cléricy)

After completing one week of prospecting in 2021 on the Courville property, visiting showings and mag features from the recent Novatema high resolution magnetic survey, mapping and taking samples, geologists are in the progress of writing the field work technical report. Nine (9) days of prospection using a helicopter was also completed over the Rivière Opinaca property located southwest and on strike of the Azmith gold discovery. Geologists are compiling data and writing a field work technical report. Detail mappings and reinterpretation of the local geology over parts of the Victoria West gold project is also underway.

Wachigabau (L'Espérance), Rich Lake (Montbray), Lac Clarice (Montbray), Lac Colnet (Montbray), Cameron (Desjardins, Franquet & Grevet), Freegold (Launay), Lac Mina (Guercheville), Lac Anctil (Guercheville), Glassville (Carleton), Devil's Pike (Queen and King Co.), Bald Hill (Queens Co.) have also been flown with a detailed Novatema magnetic survey.

Globex continues to conduct high resolution airborne mag surveys over several properties during 2022. During the first half of 2022 a total of over 4000 line-kilometres were flown over the eleven (11) projects listed above. More projects are to be surveyed in the second half of 2022.

Venus (Barraute)

Four areas in the south half of the property are being stripped, washed, mapped in detail and will be channel sampled to help understand the relationship between the veins, the rock deformation zones and the mineralisation.

Great Plains (Clermont), Ruisseau Marriott (Hebecourt)

A 570m drillhole testing off-holes anomalies was completed in the spring at Great Plains property. The drill hole intersected several intervals with sulphides up to 20% in volume mainly composed of pyrrhotite and pyrite with some chalcopyrite and sphalerite. Best result is 0.52% Cu over 3.0 meters. Pulse-EM down hole indicated an off-hole anomaly.

A 828m hole was drilled at Ruisseau Marriott testing the extension of a mineralized horizon at depth along a synvolcanic structure. The drill hole intersected several intervals with sulphides of up to 20% in volume mainly composed of pyrrhotite and pyrite. Chalcopyrite and Sphalerite were not observed in significant quantity. No significant results were returned from the assays. A pulse-EM was completed in this drillhole indicating only two small and weak conductors.

Dated: August 15, 2022**

Mineral property acquisitions

During the six months ended June 30, 2022, Globex spent \$19,521 on property acquisitions.

As of June 29, 2022, the Globex/Agnico Eagle 50-50 Wood-Pandora joint venture in Cadillac Township, Quebec has been terminated. Globex now retains 100% interest in the Central-Cadillac and Wood gold Mine properties including the Ironwood gold deposit.

Optioned and royalty properties

Labyrinth Gold Project (Formerly named Russian Kid Deposit or Rocmec 1 Gold Mine) (Dasserat twp.)

On April 12, 2022, Labyrinth Resources provide an update on its Labyrinth The highlights of the-nine page press release are the following:

- Maiden underground exploration program at flagship Labyrinth Gold Project in Quebec progressing well, with over 2,000m of diamond drilling completed
- Initial 8 holes have all intercepted the targeted Boucher lode at planned depth, with core visually displaying a well-developed quartz vein hosting pyrite and chalcopyrite. The vein has ranged from 1.5m to 6m wide with a significant alteration assemblage consisting of sericite and carbonate up to 18m wide;
- Visible gold intersected outside the current non-JORC resource between the Talus and Boucher lodes; this highlights potential to expand the known mineralization and validates Labyrinth's initial appraisal of the resource;
- Compilation of a maiden JORC Resource (existing NI43-101 foreign estimate is 2.1Mt at 7.1g/t for 479,000oz) remains on track for delivery in 2022;

On April,26, Labyrinth Resources provided the assay results from the first seven holes at the targeted Boucher lode. Highlights include:

- 7.5m @ 7.01g/t from 213m in hole LABU-22-06 including 0.5m @ 62.51g/t and 1.45m @ 8.46g/t
- 2.8m @ 5.2g/t from 230m in hole LABU-22-05 including 0.4m @ 18.91g/t
- 1.5m @ 4.68g/t from 201m in hole LABU-22-03 targeting shallowest extend of know Boucher modelled lode close to surface

On June 7, 2022, Labyrinth Resources presented the latest results confirming the high-grade gold in multiple lodes at Labyrinth Gold Project. Results include:

- 2.75m @ 7.25g/t from 239m (Boucher) in hole LABU-22-08 including 1.0m @ 18.43g/t
- 3.65m @ 5.41g/t from 30m (Talus) in hole LABU-22-09 including 0.3m @ 43.06g/t
- 0.30m @ 26.86g/t from 90m (McDowell) in hole LABU-22-12

Globex Mining Enterprises Inc.
Management's Discussion & Analysis
Six Months Ended June 30, 2022
Dated: August 15, 2022

- 16.75m Boucher intercept @ 0.41g/t from 309m in hole LABU-22-14 on a perimeter of historic interpretation, confirming significant width proximal to localized high-grade zones

On July 25, 2022, Labyrinth Resources announced drilling returns 44g/t Au from a significant 125m down-dip extension of known mineralization at Labyrinth Gold Project.

- Partial assays received for the first surface hole at Labyrinth has returned an outstanding intersection 125m down-dip of the currently defined Front-West lode, with assay result of:
 - 2.20m @ 10.67g/t from 143.5m including 0.5m @ 44.12g/t and
 - 1.00m @ 7.43g/t from 147.8m in hole LABS-22-01A as part of a broader mineralized interval of 8.10m @ 4.05g/t from 143.5m

On July 29, 2022, Labyrinth Resources announced high-grade results pave the way for a maiden JORC Resource at Labyrinth. Highly regarded consultants RSC Mining and Mineral Exploration were engaged for maiden the JORC Resource study with delivery expected in September.

Houlton Woodstock Deposit (Carleton County, New Brunswick)

On January 19, 2022, Manganese X Energy Corp. released new investors presentation providing a quick and informative overview of the active project including Battery Hill.

On February 1, 2022, Manganese X Energy Corp. announced having achieved its third and final processing metallurgical phase for the Battery Hill Preliminary Economic Assessment (PEA). Kemetco Phase Three Metallurgical Highlights include:

- The successful completion of the final processing metallurgical phase for the Battery Hill PEA has resulted in a novel and innovative purification process to produce high purity manganese sulphate monohydrate (HPMSM).
- Overall manganese recoveries as high as 80% were confirmed through locked-cycle mass balance calculations on the complete process flowsheet.
- Sulphuric acid consumption has been reduced dramatically which will result in significant cost reductions as well as permitting and environmental benefits.
- The innovative purification process has resulted in a reduction in costs and improvements to the environmental footprint.
- Impurities were minimized to below 100 ppm, including that of calcium and magnesium, which is a crucial threshold level for battery grade HPMSM.

On June 27, 2022, Manganese X Energy released a Technical Report on the Preliminary Economic Assessment of the Battery Hill Manganese Project, Woodstock, New Brunswick, Canada with an effective date of 12 May 2022. Table 1-1, Table 1-2 and Table 1-3 were copied from the PEA report.

Bräunsdorf/Silver City (Saxony, Germany)

On February 9, 2022, Excellon Resources Inc. reported that 23 out of 24 drill holes (8,360m) completed to date have intersected the target structures, additional assays were pending on four holes and an additional three holes have yet to be drilled at Grauer Wolf in Q1 2022.

Step-out drilling intersected significant silver mineralization at four targets, with results including:

- 1,633 g/t silver equivalent ("AgEq") over 0.35 metres (1,470 g/t Ag, 0.2 g/t Au, 2.9% Pb and 2.1% Zn) within 257 g/t AgEq over 2.90 metres (232 g/t Ag, 0.4% Pb and 0.3% Zn) in SC21GVB020 at Peter Vein;
- 1,296 g/t AgEq over 0.35 metres (1,260 g/t Ag, 0.2 g/t Au, 0.6% Pb and 0.3% Zn) within 592 g/t AgEq over 1.05 metres (508 g/t Ag, 0.1 g/t Au, 1.4% Pb and 1.2% Zn) in SC21GWO033 at Grauer Wolf;
- 266 g/t AgEq over 0.65 metres (228 g/t Ag, 0.1 g/t Au, 0.7% Pb and 0.5 % Zn) within 169 g/t AgEq over 1.93 metres (137 g/t AgEq, 0.3% Pb and 0.6% Zn) in SC21GWO030 at Grauer Wolf;
- 383 g/t AgEq over 0.38 metres (7.0 g/t Ag and 5.0 g/t Au) in SC21REI027 at Reichenbach.

On June 9, 2022, Excellon Resources announced the extension of the Bräunsdorf License on the Silver City Project to September 30, 2025 per the Saxony licencing requirements.

On July 8, 2022, Excellon Resources announced the filing of an updated independent technical report for the Silver City Project in Saxony Germany. The report is available both on Sedar and on Excellon's website.

Mont Sorcier (Roy twp)

On July 22, 2022, Voyager Metals Inc. announced an updated mineral resource estimate at its Mont Sorcier Iron and Vanadium Project in Quebec effective June 9, 2022.

Normetal/Normetmar (Desmeloizes, Perron twps)

On January 11, 2022, Starr Peak Mining announced drilling assay results from its ongoing 2021 drilling campaign on its NewMétal property.

Highlights:

Upper Zone (above 400m vertically)
 STE-21-73: 5.90 m of 6.04 % ZnEq,

**Globex Mining Enterprises Inc.
Management's Discussion & Analysis
Six Months Ended June 30, 2022
Dated: August 15, 2022**

Deep Zone (below 400m vertically)

STE-21-82-W1: 9.85 m of 8.98 % ZnEq incl. 0.82 % Cu

STE-21-82: 7.20 m of 5.14 % ZnEq incl. 1.28 % Cu

On February 8, 2022, Starr Peak announced the mobilization of a third drill on its NewMétal property to focus on high priority VTEM anomalies.

On May 18, 2022, Starr Peak reported 5.03% Zinc-Equivalent over 12.5 meters, a high grade copper intercept, and discovery of a new 1Km long VWS horizon.

On May 26, 2022, Starr Peak reported highlights from the deep drilling of the Normetmar trend in hole STE-21-92-W3 returning 9.49% Zn-Eq over 5.90 meters, including 17.17% Zn-Eq over 3.05m.

O'Brien (Cadillac twp)

On January 12, 2022, Radisson Mining Resources reported multiple high-grade gold intersections in what they call the #4 Trend which is entirely within Globex's Kewagama royalty claims and also in the #3 Trend down plunge to the east, which is largely on Globex's Kewagama royalty claims.

Highlights:

Trend #4

31.56 g/t Au over 2.00 m

13.83 g/t Au over 2.40 m

Trend #3

15.68 g/t Au over 2.00 m

11.75 g/t Au over 2.50 m

Lac Testard Ouest (NTS 32J15)

On February 8, 2022, Troilus Gold Corp. resorted surface sampling and other exploration on Globex's Lac Testard royalty exploration claims. Surface sampling by Troilus has returned grab sample assays of:

203.0 g/t Au, 2,440 g/t Ag and 4.37% Cu

54.20 g/t Au

34.90 g/t Au 13.55 g/t Au

These samples from outcrop are the highest to date ever reported in outcrop within the Frotet-Evans Greenstone Belt.

On March 31, 2022, Troilus Gold Corp. announced a new discovery at Testard. Holes TES-21-001 and TES-21-002 intersected gold-rich quartz veins ~400 metres northwest of the main Testard outcrop.

Hole TES-21-002 intersected 4.63 g/t gold over 7.6 metres, including 20.2 g/t gold over 1.2 metres and 7.12 g/t gold over 1.4 metres

Globex Mining Enterprises Inc.
Management's Discussion & Analysis
Six Months Ended June 30, 2022
Dated: August 15, 2022

Hole TES-21-001 intercept highlights including 1.96 g/t gold over 3.8 metres, including 2.68 g/t gold over 1.8 metres and 4.86 g/t gold over 0.75 metres

Drill hole TES-21-005 targeted and intersected mineralized gold bearing structures at depth below previously sampled outcrop. Intercept highlights include 6.72 g/t gold over 3.2 metres, including 17.3 g/t gold over 0.7 metres.

Fontana (Duvernay)

On December 7, 2021, Tres-Or Resources Ltd. announced the completion of its option agreement to acquire 100% interest in 23 mineral claims comprising the Fontana Gold Project subject to Globex retaining a 2% NSR.

The Fontana Gold Project has been the subject of considerable past work, including the sinking of a 92-meter shaft, excavation of 242 meters of underground workings, completion of over 300 drill holes, and processing of 22,047 tonnes of bulk sample material yielding 1,450 ounces of gold.

On January 19, 2022, Tres-Or Resources Ltd. Announced that it has received TSX Exchange approval for an Amended and Restarted Option Agreement with Kiboko Gold Inc. as per Tres-Or news release dated December 1, 2021.

On July 21, 2022, Très-Or Resources announced that all terms in the Amended and Restated Option Agreement with Kiboko Gold Inc. dated November 30, 2021 have been completed. Now Kiboko is the operating company of the Globex royalty claims.

Joutel Eagle (Joutel, Valrenne)

On April 6, 2022, Orford Mining announced that they had compiled some 20,000 metres of historical drilling which allowed them to identify multiple gold zones to guide immediate exploration efforts. On April 16, 2022 Orford announced two drill hole completed on the South Gold Zone intersected multiple zones of quartz and pyrite. Samples have been sent for analysis.

On May 12, 2022, Orford Mining reported encouraging preliminary drill results from Joutel Eagle Gold Property. Highlights include:

- Confirmation of the location of the historical "South Gold" mineralization system on the Joutel Eagle Property
- Grades of up to 10.8 g/t Au over 0.84 meters included in a wider interval were intersected in drill hole 22-JE-002. This is higher than those reported historically from the system nearby hole 82-02 which reported up to 5.5 g/t Au over 1.43 meters.
- Higher grade sections associated with quartz veining occur within broader lower grade intervals with abundant disseminated sulphides. Such intervals include 9.35 meters grading 2.20 g/t Au and 7.13 meters grading 1.70 g/t Au in hole 22-JE-002.

On June 7, 2022, Orford Mining reported drill hole assays from its winter drilling at the Joutel Eagle Gold Property. Highlights include:

- Grades of up to 14.7 g/t Au over 0.64 meters included in an interval of 1.11 g/t Au over 20.64 meters were intersected in drill hole 22-JE-003. Orford has increased the width of the mineralization in drill

**Globex Mining Enterprises Inc.
Management's Discussion & Analysis
Six Months Ended June 30, 2022

hole 22-JE-002 to 1.24 g/t Au over 28.10 meters within a much broader lower grade horizon of 0.97 g/t Au over 46.98 meters.

- The lower mineralization horizon encountered in holes 22-JE-002 and 22-JE-003 contains massive to semi massive sulphides in a graphitic matrix, similar to what was encountered historically at the Eagle-Telbel mine along strike to the south east.

Eagle Mine (Joutel)

On April 21, 2022, Maple Gold Mines Ltd. Provided an update on winter drilling activities and upcoming explorations plans. A 3D model of the mine was completed. Eight drill holes were completed in phase I campaign testing a possible secondary shoot of mineralization adjacent to the main shoot historically mined at Eagle. An additional deeper 960m hole is being drilled and three more deeper sites (up to 1,350m) are currently being permitted.

On June 20, 2022, Maple Gold Mines reported phase I drill results at Eagle. Highlights include:

- Drill hole EM-22-005 intersected 4.0 g/t Au over 7.5 m, including 6.4 g/t Au over 3.0 m, within a semi-massive pyrite and iron carbonate horizon typical of historical Eagle-Telbel style of mineralization.
- Drill hole EM-22-001 intersected 4.4 g/t Au over 0.9 m within quartz-carboante veinlets containing visible gold.
- Drill hole EM-22-002 intersected 2.4 g/t Au over 4.7 m, including 3.8 g/t Au over 2.1 m, within highly altered, graphitic and pyritic Harricana Group sediments, as well as 2.1 g/t Au over 1.8 m further up hole in altered microgabbro.

On July 19, 2022, Maple Gold announced having completed regional airborne Mag-EM survey and identified new drill targets at Douay and Joutel.

Sales and option income for the six months ended June 30, 2022

Dated: August 15, 2022

Maple Gold Mines Ltd., Eagle Gold Mine Property, 144,126 common shares with a fair value of \$46,841	-	46,841
Manganese X Energy Corp., Battery Hill Property, cash of \$20,000	20,000	
Sales, option income and advance royalties for the period	479,985	193,466

In the six months ended June 30, 2022, Globex generated sales, option income and advance royalties which excludes numerous other royalty properties on which many partners may be working. The sales, option income and advance royalties of \$673,451 consisted of cash receipts of \$479,985 and shares in optionee corporations with a fair value of \$193,466.

In the six months ended June 30, 2021, Globex generated sales, option income and advance royalties from five new option/sale agreements and two ongoing agreements which excludes numerous other royalty properties on which many partners may be working. The sales, option income and advance royalties of \$5,340,000 consisted of cash receipts of \$810,000 and shares in optionee corporations with fair value of \$4,530,000.

Royalties

At June 30, 2022, 90 royalty arrangements were in effect at various stages. During the six months ended June 30, 2022, Globex added 9 new royalty arrangements.

Property, Province	Royalty Interests
Des Herbiers, Uranium, Quebec	3% GMR
Duval West, Lithium, Quebec	1% GMR
Electron Lithium, Quebec	0.5 % on 417 claims
La Motte, Lithium, Quebec	1% GMR

Related Party Transactions

	June 30, 2022 (\$)	December 31, 2021 (\$)
Related party receivable		
Chibougamau Independent Mines Inc.	17,723	16,857
Duparquet Assets Limited	876	869
Total	18,599	17,726

The receivables due from the related parties bear no interest, are without specific terms of repayment and are not secured.

As reflected in the unaudited condensed interim consolidated statement of cash flows there was a net cash decrease of \$1,618 in the related party receivable balance during the six months ended June 30, 2022 (six months ended June 30, 2021 - increase of \$11,971 in related party receivable balance).

Chibougamau Independent Mines Inc. ("CIM")

CIM is considered a related party as Globex Management consisting of the President and CEO and a Director hold the same positions with both entities. In addition, the President and CEO holds a large number of common shares of both organizations through Jack Stoch Geoconsultant Limited, a private company which is the principal shareholder of CIM and Globex and therefore can significantly influence the operations of both entities.

Management services

On December 29, 2012, Globex entered into a Management Services Agreement with CIM under which the Corporation agreed to provide management services including administrative, compliance, corporate secretarial, risk management support and advisory services to CIM.

Management services income of \$2,872 and \$5,744, respectively for the three and six months ended June 30, 2022 (three and six months ended June 30, 2021 - \$nil and \$2,421, respectively) represents Globex's estimate of the specific costs related to performing these services in accordance with the Management Services Agreement.

All related party transactions disclosed above were at the agreed amounts that approximate fair value.

Management compensation

The total compensation for the respective periods paid to directors and key management personnel having authority and responsibility for planning, directing and controlling the activities of the Corporation (Management personnel includes the President and CEO, Chief Financial Officer ("CFO"), Treasurer and Corporate Secretary) are as follows:

**Globex Mining Enterprises Inc.

Professional fees and outside services (i)	19,158	21,103	40,544	49,043
Total	429,412	65,975	519,248	140,155

(i) In the three and six months ended June 30, 2022, management consulting fees of \$19,158 and \$40,544, respectively (three and six months ended June 30, 2021 – \$21,103 and \$49,043, respectively) were paid to the CFO and the Corporate Secretary. They were appointed on September 20, 2017. As at June 30, 2022, the balance due to CFO and Corporate Secretary is \$1,629 (December 31, 2021 - \$3,070) which is included in payables and accruals due under normal credit terms.

Share Capital

As at the date of this MD&A, the Corporation had 55,635,336 common shares and 2,595,000 stock options outstanding, which resulted in fully diluted common shares of 58,230,336.

Normal Course Issuer Bid

On July 8, 2021, the Corporation announced that TSX approved the renewal of the normal course issuer bid (“NCIB”). The Corporation is entitled to repurchase for cancellation up to 1,000,000 common shares, representing 1.82% of Globex's issued and outstanding shares as of June 30, 2021, over a twelve-month period starting on July 12, 2021 and ending on July 11, 2022. The purchases by Globex will be effected through the facilities of the TSX and on other alternative trading systems in Canada and will be made at the market price of the shares at the time of the purchase.

During the six months ended June 30, 2022, 19,700 common shares of Globex were purchased for cash consideration of \$20,651 in accordance with the NCIB.

Disclosure of Controls and Procedures and Internal Controls Over Financial Reporting

Management is responsible for establishing and maintaining adequate disclosure controls and procedures (“DCP”) as well as internal controls over financial reporting (“ICFR”) as described in our 2021 annual MD&A.

The Corporation's CEO and CFO, with the participation of management last completed an evaluation of the design and operating effectiveness of the Corporation's DCP's and ICFR's as at December 31, 2021. Based on that assessment, management concluded that the Corporation's ICFR were operating effectively at December 31, 2021 which was based on the COSO Model.

During the six months ended June 30, 2022, the CEO and CFO have evaluated whether there were changes to the ICFR that have materially affected, or are reasonably likely to materially affect, the ICFR. No such significant changes were identified through their evaluation which was based on the COSO Model.

Risks and Uncertainties

The exploration, development and mining of mineral resources are highly speculative in nature and are subject to significant risks. Such investment should be undertaken only by investors whose financial resources are sufficient to enable them to assume these risks and who have no need for immediate liquidity in their investment. Prospective investors should carefully consider the risk factors that have affected, and which in the future are reasonably expected to affect, the Corporation and its financial position. Please do refer to the section entitled “Risks and Uncertainties” in the Corporation’s MD&A for the fiscal year ended December 31, 2021, available on SEDAR at www.sedar.com.

Cautionary Note Regarding Forward-Looking Statements

This MD&A contains certain “forward-looking information” as defined in applicable securities laws (collectively referred to herein as “**forward-looking statements**”). These statements relate to future events or the Corporation’s future performance. All statements other than statements of historical fact are forward-looking statements. Often, but not always, forward-looking statements can be identified by the use of words such as “plans”, “expects”, “budgeted”, “scheduled”, “estimates”, “continues”, “forecasts”, “projects”, “predicts”, “intends”, “anticipates” or “believes”, or variations of, or the negatives of, such words and phrases, or statements that certain actions, events or results “may”, “could”, “would”, “should”, “might” or “will” be taken, occur or be achieved. The forward-looking statements in this MD&A speak only as of the date of this MD&A or as of the date specified in such statements. The following table outlines certain significant forward-looking statements contained in this MD&A and provides the material assumptions used to develop such forward-looking statements and material risk factors that could cause actual results to differ materially from the forward-looking statements.

Forward-looking statements	Assumptions	Risk factors
