Donalda Property Sale

On October 6, 2017, \$300,000.00, 350,000 Falco shares (currently \$1.14/share) and 350,000 five year Falco warrants at a strike price of \$1.15 were paid to Globex by Falco Resources Inc. (FPC-TSXV). In addition, the Dickenson Property which adjoins onto the east side of Globex’s Francoeur/Arntfield gold property was transferred to Globex. These claims will add at least 1.5 km of the gold localized Francoeur/Wasa fault to Globex’s current approximately +7 km long holding. Globex is presently working on the Arntfield portion of the Francoeur/Arntfield property in an area near and to the southwest of the Arntfield #1 shaft where stripping and channel sampling have returned significant gold values from a new mineralized area. (See Globex Press Release dated September 25, 2017). A 10 hole drill program will start next week to test the new discovery horizon over a 340 m (1,115 ft) strike length.

Enforcer is currently completing a \$2.2 million exploration program of stripping, channel sampling, mapping, prospecting, geophysics and drilling.

Mid Tennessee Mines

The September monthly royalty payment from zinc production at the Mid Tennessee Mines has been calculated. The payment will be US\$ 93,954 (CDN\$ 115,403). Monthly payments since the start of production in May now totals CDN\$ 551,393. The mine and mill are currently ramping up to full production and zinc prices have been steadily rising so royalty payments are expected to rise.
