GLOBEX TO START DRILLING AT NORMÉTAL

Rouyn-Noranda, Quebec, Canada. GLOBEX MINING ENTERPRISES INC. (GMX - Toronto, G1M - Frankfurt, Stuttgart, Berlin, Munich, Xetra and GLBXF - OTCQX) is pleased to inform shareholders that a drill has been moved onto the Normetal zinc, copper, gold and silver property 80km north of Rouyn-Noranda, Quebec.

It is expected that drilling will commence within 1 to 2 days on an initial 18 hole, 8,000 meter program within the upper 610 meters of the 2,500 meter deep orebody. Should the initial program be successful, Globex intends to continue drilling the orebody using the \$4 million of exploration funds recently raised via a private placement.

Globex would like to express our gratitude to the people of the town of Normétal and the Town Council who have been most welcoming of our efforts to revive the Normétal Mine, formerly one of Quebec's largest copper, zinc, gold and silver producers.

For further information regarding the Normétal Property, please refer to Globex's July 26, 2007 press release available on our website, www.globexmining.com.

This press release was written by Jack Stoch in his capacity as a Qualified Person (Q.P.).

We Seek Safe Harbour.
