The NI 43-101 report was written by John Langton MSc, PGeo, of MRB & Associates and the resource estimate of the report was completed by Alex Horvath, P. Eng, of A.S. Horvath Engineering, both Qualified Persons as defined in NI 43-101.

This new resource now totals 1,337,663 tonnes containing 176,527 ounces of gold. Globex retains a 10% Net Profit Royalty and a 2% Net Metal Royalty from all mineral production from the property. In addition, option payments consisting of \$300,000 and 1.5 million Plato shares remain to be paid by December 31, 2011. An additional \$3.6 million in property expenditures are also required by December 31, 2011 as well as a bankable feasibility study by December 31, 2012.

Plato reports that work will also start on the Nordeau East gold zone and Bateman claims which are also part of the Plato-Globex agreement. For greater detail as regards the Nordeau Gold property, please refer to the Plato Press Release dated March 12, 2009.

This press release was written by Jack Stoch, P. Geo. President and CEO of Globex in his capacity as a Qualified Person (Q.P.) under NI 43-101.
